How to use the ChatGPT image generator

Three steps to your first image on nabn.

1

Describe your image

Type a plain-text prompt — the subject, the style, the layout, and any exact words you want rendered on the image.

2

Generate the image

Sign in, spend credits, and the GPT Image 2 model renders your image from the description.

3

Refine the prompt

Not quite right? Adjust the wording and generate again — small prompt changes steer the model toward exactly what you pictured.

nabn is a prompt-based workspace for AI image and video generation.
